

Fix the Kynaston House Door

To: Metropolitan Repairs Department, PO Box 10262, Nottingham NG8 9LE

Dear Metropolitan,

I am very concerned about the security door of Kynaston House, Challice Way, London SW2. The door should automatically close behind everyone who leaves. Instead the door remains open after someone has left, which leaves the entire block very insecure.

This is an urgent fix as it affects the security of all flats in the block

Please respond to me with details of when this will be fixed, and keep me informed of the status of this repair.

I look forward to hearing from you

Yours sincerely,
